(Obviousness-Type Double Patenting Rejection Over A Prior Patent)

Petitioner hereby disclaims, except as provided below, the terminal part of any patent granted on the instant application, which would extend beyond the expiration date of Patent No's. 6,590,803; 6,381,105; and 5,635,835 as presently shortened by any terminal disclaimer. Petitioner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and the above-listed patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors, or assigns.

In making the above disclaimer, disclaimant does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. Sections 154 to 156 and 173 of the patent forming the basis of the double patenting rejection, namely, Patent No's. 6,590,803; 6,381,105; and 5,635,835 as presently shortened by any terminal disclaimer, in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. Section 1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

The owner of the instant application waives the right to separately enforce and the right to separately license the prior patent and any patent granted on the instant application. The owner of the instant application hereby agrees that the prior patent and any patent granted on the instant application shall be enforceable only for and during such period that the prior patent and any patent granted on the instant application are not separately enforced and are not separately licensed. The waiver, and this agreement, run with any patent granted on the instant application and are binding upon the owner of the instant application, its successors, or assigns.
